Results from AP0012, KIH006, KIH007, KIH010, KRC054, KRC056 and KRC058 on this section have previously been announced.

The above results are part of an infill drilling programme currently being conducted by the Company, with the intention of upgrading this 2.4km long zone of mineralisation to a JORC compliant resource, down to a vertical depth of 150m.

Further results from other sections are pending.

*The information in this report that relates to exploration results, together with any related assessments and interpretations, is based on information compiled by Mr Giles Rodney (Rod) Dale of G R Dale & Associates, who is a non-executive Director of the Company. Mr Dale is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Dale has sufficient experience which is relevant to the style of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Mineral Resources and Ore Reserves". Mr Dale consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.*
