## ASX RELEASE

20 December 2006

### Assay Results from Drilling, Kihabe Zinc Project, Botswana Mount Burgess Mining N.L. 100%

Further assay results using the ICP-OES method have been received from RC resource infill drilling on the above project, (see diagram attached).

**KRC103**      10,074E/10,050N, Dip - 90 deg, Azimuth 0 deg.  
 Drilled to test the continuity of mineralisation between sections 10,000mE and 10,100mE

From	To	Zinc	Lead	Copper	Vanadium	Silver
30	31	1.05%				
36	37	1.07%				
44	45	1.09%				
46	47		1.16%			
54	55		1.00%

End of Hole 145m

The above results are part of an infill resource drilling programme currently being conducted by the Company, with the intention of upgrading this 2.4km long zone of zinc, lead, silver, copper and vanadium mineralisation to a JORC compliant resource, down to a vertical depth of 150m.

The above results are provisional and are subject to recheck by an independent laboratory. The Company announced on the 14 November 2006 that some 184 assay rechecks conducted to date by an independent laboratory had revealed that there could be a possible 20% upgrade to the zinc grades so far announced. Some 1,700 assay rechecks are currently being conducted to verify this situation, which is delaying the estimate of an initial geological resource for this project.

*The information in this report that relates to exploration results, together with any related assessments and interpretations, is based on information compiled by Mr Giles Rodney (Rod) Dale of G R Dale & Associates, who is a non-executive Director of the Company. Mr Dale is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Dale has sufficient experience which is relevant to the style of mineralisation under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Mineral Resources and Ore Reserves". Mr Dale consents to the inclusion in the report of the matters based on this information in the form and context in which it appears.*
