ASX CODE: MTB

DRILLING PROGRAMME - NXUU POLYMETALLIC DEPOSIT BOTSWANA

On 30 August 2021, the Company released an announcement to the market confirming that it had engaged a contractor to conduct a drilling programme at its polymetallic Zn/Pb/Ag/V/Ge Nxuu Deposit in Botswana.

One rig has now arrived on site, with a second rig expected around 4 or 5 October. Drilling will commence once drill crews return to site after the Botswana Independence Day celebrations on 30 September 2021.

For details of the proposed drilling programme please refer to the announcement of 30 August 2021.
