

Half-Year Financial Report

31 December 2024

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2024 and any public announcements made by Mount Burgess Mining NL during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The Directors of Mount Burgess Mining N.L. submit herewith the financial report of Mount Burgess Mining N.L. and its subsidiaries (the Group) for the half-year ended 31 December 2024. In order to comply with the provisions of the *Corporations Act 2001*, the Directors' report as follows:

DIRECTORS

The following persons were directors of Mount Burgess Mining NL during the half-year and up to the date of this report:

Nigel Raymond Forrester (Chairman and Managing Director)

Harry Warries

Robert Brougham

Jacob Thamage

Ian Barclay McGeorge

REVIEW OF OPERATIONS

Overview

- (a) The objectives of the Group are to explore for and in the event of discovery, develop commercial deposits of mineral resources. To this end, during the financial period the Group was involved with the following:

Western Ngamiland, Botswana – Base Metals, Precious Metals and Strategic Metals

A two-year renewal of PL 43/2016 to 31 December 2026 was granted on 19 December 2024. PL 43/2016 covers an area of 1000 sq km within which is situated a Neoproterozoic belt prospective for base metals, precious metals and strategic metals.

To date, the Group has developed Indicated and Inferred Mineral Resource Estimates compliant with the 2012 JORC Code at the Kihabe and Nxuu Deposits, as follows:

- Kihabe Deposit. A 21 million tonne Mineral Resource was estimated @ 2% Zinc equivalent grade, applying a 0.5% Zinc equivalent low cut, containing Zinc, Lead, Silver and Vanadium Pentoxide. Not included in the Mineral Resource Estimate were Copper, Gallium and Germanium, which at current metal prices could represent significant credits. Further drilling and assaying for Copper, Gallium and Germanium will be required to include them in a Mineral Resource Estimate. The Kihabe Deposit has the potential to be an open-cut mining operation.
- Nxuu Deposit. A 6 million tonne Mineral Resource was estimated @ 1.8% Zinc equivalent grade, applying a 0.5% Zinc equivalent low cut, containing Zinc, Lead, Silver, Vanadium Pentoxide, Gallium and Germanium. The Nxuu Deposit has the potential to be an open-cut mining operation where 83.4% of the Deposit to the base of mineralisation is included in the Mineral Resource Estimate. The remaining 16.6% is made up of 6.9% Kalahari sand cover and 9.7% of low grade or barren quartz wacke.
- The combined in-ground metal content of the Kihabe and Nxuu Mineral Resource Estimates is as follows:

Metal	Unit	Kihabe Resource	Nxuu Resource	Total
Zinc	Tonnes	321,000	64,000	385,000
Lead	Tonnes	154,000	32,000	186,000
Silver	Oz	5,400,000	1,040,000	6,440,000
V2O5	Tonnes	10,000	2,600	12,600
Gallium	Kg	Not included	86,500	86,500
Germanium	Kg	Not included	19,200	19,200
Copper	-	Not included	Not significant	Not included

As a SEDEX system of mineralisation, potential exists for the development of further Mineral Resource Estimates, delineated through a number of geochemical soils anomalies within PL43/2016.

- (b) Performance and indicators used by management in carrying out the above objectives include:
- Assessing and reviewing the likeliness of making a discovery through exploration
 - Assessing the risks and rewards relative to the costs of exploration and the values of the minerals being explored for
- (c) As the Group is involved only in exploration and resource development at this stage, any significant commercial discovery or resource upgrade could have a significant impact on the capitalisation of the Group. However, inherent in all exploration are risk factors relative to rates of success. Even beyond exploration at the point of resource development, risks prevail relative to fluctuations in commodity prices, rates of exchange and political risk.

OPERATIONS AND PRINCIPAL ACTIVITIES

- (a) The main business activity of the Group during the six months to 31 December 2024 consisted of assessing the way forward for the project. This included investigating the potential to exploit additional known metal credits such as Copper, Vanadium, Gallium and Germanium and investigating various metallurgical processes that could be applied to enhance the potential for on-site beneficiation of metal production.

Funds applied to the various exploration activities were as follows:

	Half year to 31 Dec 2024	2024	2023	2022	2021
	\$	\$	\$	\$	\$
Resource development for base metals in Botswana	165,085	403,426	368,645	559,181	286,305

- (b) As the Group was involved in exploration and resource development over the Kihabe-Nxuu Project during the six months to 31 December 2024, there were not any returns to shareholders by way of dividends and increase in shareholder funds. Between 2021 and 2024 the Company's shares traded as follows:

Half year Dec 2024		2024		2023		2022		2021	
Low cents	High Cents	Low cents	High cents	Low cents	High cents	Low cents	High cents	Low cents	High cents
0.2	0.5	0.1	0.4	0.2	0.7	0.5	0.9	0.1	2.8

Since the Group regained title to its Kihabe-Nxuu base metals project through the renewal of PL43/2016, the Company has been in a far more favourable position to raise funds for ongoing resource development and exploration expenditure for the project.

- (c) Compliance with Covid-19 restrictions imposed by the Government of Botswana, did impact upon the ability to access the project site during 2020 and 2021. However, this allowed for time to be applied to operations, as outlined in (a) above.

FINANCIAL CONDITIONS

- (a) Further resource exploration requirements beyond the Group's current cash resources can only be funded from further share and loan capital raisings or the sale or joint venture of equity in the projects.
- (b) At the end of the half year ended 31 December 2024, the Group had cash resources of \$133,954.
- (c) A loan agreement is in place with Exchange Services Ltd, a company controlled by A P Stirling, a former Director of the Company for funding up to £275,618 equivalent to \$515,328; funding of \$347,473 provided via a loan from Jan and Nigel Forrester; funding of \$50,000 provided via a loan from Harry Warries; funding of \$14,000 provided via a loan from Chris Campbell-Hicks, a former director of the Company. (Loan details please refer to Note 7). There were no other resources available to the Group that are not reflected in the Condensed Consolidated Statement of Financial Position, other than the availability to raise further funds through the issue of shares, loan funds, the sale or joint venture of equity in projects and the sale of assets.

The Consolidated Entity has continued financial support from the Directors, former Directors and their associated entities, in that the Directors have confirmed in writing that they will not recall upon their loans to be repaid within the next 12 months, unless sufficient funds are available to do so without affecting the Company's going concern. As at 31 December 2024, the Directors' loans outstanding were \$1,674,840 (Note 7) and accruals for unpaid salaries for a director and his related party amounting to \$2,762,610 (Note 6).

- (d) As the Group was mainly involved in exploration and resource development over the Kihabe-Nxuu project during the half year, then later assessing the way forward for the project, there was not any cash generated from operations.
- (e) The financial condition of the Group was not impacted by any legislation or other external requirements during the reporting period. It is not currently foreseen that the financial condition will be materially affected by such issues in future reporting periods.
- (f) The Review Report as at 31 December 2024 issued by the Group's auditor, contains a "Material uncertainty related to going concern" paragraph in relation to the Group's ability to continue as a going concern. The directors are of the opinion that the use of the going concern basis of accounting is appropriate as they are confident in the ability of the Group to be successful in securing additional funds through debt or equity issues as and when the need to raise working capital arises.

SUBSEQUENT EVENTS

No other matters or circumstances of which the Directors are aware, other than those referred to in the condensed financial statements or notes thereto, have arisen since the end of the half-year which significantly affect, or may significantly affect the operations, results or state of affairs of the consolidated entity in subsequent financial periods.

AUDITOR'S INDEPENDENCE DECLARATION

1. MATERIAL ACCOUNTING POLICIES

Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and *AASB 134 Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard *IAS 34 Interim Financial Reporting*.

Basis of preparation

The half-year financial report does not include all notes of the type normally included within the annual financial report. It cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report and should be read in conjunction with the 30 June 2024 annual financial report of Mount Burgess Mining NL.

It is also recommended that the half-year financial report to be considered together with any public announcements made by Mount Burgess Mining NL during the half-year ended 31 December 2024 in accordance with the continuous disclosure obligations arising under *Corporations Act 2001*.

The half-year financial reports have been prepared on the accrual basis and are based on historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Company's annual financial report for the year ended 30 June 2024.

Accounting standards and Interpretation adopted

New accounting standards and Interpretation applicable to 31 December 2024

In the half-year ended 31 December 2024, the Company has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 July 2024.

As a result of this review, the Directors have determined that there is no material impact on the Company of any new and revised Standards and Interpretations and therefore no material change is necessary to accounting policies.

New accounting standards and interpretations issued but not yet effective for the period ending to 31 December 2024

The Directors have also reviewed all the new and revised Standards and Interpretations in issue, not yet adopted, that are relevant to the Company and effective for the half-year reporting periods beginning on or after 1 January 2025.

As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations in issue, not yet adopted, on the Company and therefore no material change is necessary to accounting policies.

Going Concern

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

The Consolidated Entity has incurred net losses before tax of \$354,208 (31 December 2023: \$270,327) and net cash outflows from operating and investing activities of \$197,524 (31 December 2023: \$299,295) for the half year ended 31 December 2024. As of 31 December 2024, the Consolidated Entity had a working capital deficiency of \$4,827,669 (30 June 2024: \$4,370,821) and cash and cash equivalents of \$133,954 (30 June 2024: \$367,265).

1 MATERIAL ACCOUNTING POLICIES (Cont'd)

The ability of the Consolidated Entity to continue as a going concern is dependent upon continued financial support from its Directors' related parties and creditors, and on securing additional funding through capital raising to continue to meet its working capital requirements in the next 12 months. These conditions indicate a material uncertainty that may cast significant doubt that the Consolidated entity will continue as a going concern and therefore that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Directors believe the Consolidated entity will continue as a going concern and be able to pay its debts as and when they fall due, for the following reasons:

- (a) The Consolidated Entity has continued financial support from the Directors, former Directors and their associated entities, in that they have confirmed in writing that they will not call upon their loans to be repaid within the next 12 months, unless sufficient funds are available to do so without affecting the Company's going concern. As at 31 December 2024, the Directors' loans outstanding were \$1,674,840 (Note 7) and accruals for unpaid salaries for director and his related party amounting to \$2,762,610 (Note 6);
- (b) The Company has the ability to raise funds through equity issues. In relation to additional funding via capital raisings, initial discussions have commenced with potential brokers;
- (c) In addition, the Directors have also embarked on a strategy to reduce costs in line with the funds available to the Consolidated Entity; and
- (d) The Directors are of the opinion that the use of going concern basis of accounting is appropriate as they are confident in the ability of the Consolidated Entity to be successful in securing additional funds through debt or equity issues as and when the need to raise working capital arises.

Should the Consolidated Entity be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different from those stated in the financial report. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that may be necessary should the Consolidated Entity be unable to continue as a going concern.

2. EVENTS OCCURRING AFTER REPORTING PERIOD

No other matters or circumstances of which the Directors are aware, other than those referred to in the condensed financial statements or notes thereto, have arisen since the end of the half-year which significantly affect, or may significantly affect the operations, results or state of affairs of the consolidated entity in subsequent financial periods.

3. ADMINISTRATION EXPENSES

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF MOUNT BURGESS MINING N.L

Conclusion

We have reviewed the accompanying half-year financial report of Mount Burgess Mining N.L. ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2024, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of material accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Mount Burgess Mining N.L and Controlled Entities does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2024 and of its performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134: *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the financial report, which indicates that the Consolidated Entity incurred a net loss of \$354,208 during the half year ended 31 December 2024. As stated in Note 1, these events or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
